

## **EASTERN ECONOMIC FORUM NEWS DIGEST**

Russia presents Japan with a reciprocal 49-point cooperation plan. The preliminary results of its discussion will be drawn on the sidelines of the Eastern Economic Forum, states Y. Ushakov.

(PRIME)

The Sakhalin Region Development Corporation will finance the project for a large farm worth RUB 8 bn. A relevant agreement will be signed at the Eastern Economic Forum. This agribusiness is about contemporary milk processing; the farm will produce up to 19 brands of sour dairy products and cheeses.

(TASS)

More than 30 big investment projects worth RUB 1.5 trn will be presented at a pitch session (brief presentations by participants), as part of the EEF. Projects for the session were selected by the Russian Ministry for Development of Russia's Far East. The presentation zone format targets a direct dialogue between Russian and foreign investors, chief executives of businesses, public officials and media representatives, allowing the project initiators to deliver a detailed report, while investors can learn about all the details of the future project from the first-person perspective. Investors are positive that the possibility to present their projects in this format will draw much attention to particular projects, along with extra investments not only in this project, but also in the region as a whole.
